Con Alma Health Foundation 2024 Application Questions

Proposed Outcomes and Their Impact – (Describe up to three important changes or accomplishments you expect this funding to assist. Describe the significance or impact of each during the grant period and immediately after - short term.) *150 words*

Measuring or Reporting Outcomes – (Discuss how you will know you have achieved the outcomes you identified. If they are measurable, describe the measure(s) and how you will track them. If they aren't easily measurable, describe any key indicators or results you expect.) *150 words*

Long Term Impact – (Identify any possible changes or evidence that would show your work having a long-term impact after the grant period. If you will continue this work after CAHF funding ends, discuss how you will do so.) *100 words*

Geographic Information Questions

The geographic information section of the application consists of two narrative questions and several areas to indicate the locations you intend to work in and the areas that may experience the effects of your work once completed. Only the narrative questions are replicated here. The other items consist of check boxes and dropdown menus that will make more sense and be active while looking at the application.

Geographic Focus of Activities – (Describe the geographic location(s) where funded activities and work will be done- where staff will work, where people will be involved and things will happen during the grant period. Explain why this geographic focus best serves the purposes of the funding.) *100 words*

Statewide Impact – (Describe the statewide impact you expect from this effort and identify what indicators will show how your effort achieves that impact. Please Note: If you have selected Statewide in the Primary or Secondary Geographic Impact option, you must answer this question.)
